

## OPTIONS

# Reversibility by Double Block

With this option, customer can choose the polarity of the generator.

The generator is delivered with 2 HV blocks: one inside the machine and one outside.

For changing the polarity, user has to swap HV block.

- ▶ Easy to operate
- ▶ No special expertise, no dedicated tool required
- ▶ Swapping realized within 15 to 45 minutes (depending on the model)

- ▶ Polarity is automatically indicated on the front panel
